Re: Wasco WWTP, CA

Subj: Conveyor Supply & Install

Dear Mike,

We have completed the Wasco Project and I wanted to drop a note of appreciation to you and Custom Conveyor Corporation. The conveyor system was well designed and executed, it was evident that the system was shop fit and tested before it left your facility. The field installation went well and despite some elevation issues Custom Conveyor worked as part of our team to help facilitate the modifications required. Your personal availability, clarifications, and the quick turn around on the smallest project management details such as supplying additional flex chute hardware were helpful to this successful project.

As you know the start up went smoothly. SCCI and I consider you a quality vendor and we look forward to working with you and Custom Conveyor Corp again in the near future.

Thanks again for all your help here.

Sincerely,

Spiess Construction Company, Inc.
