

## OUR MISSION

at Vessco is to provide the highest level of quality and service to the municipal and industrial customers we serve with our Total Solution approach. This includes initial project consultation, design partnering, installation assistance, field service and parts delivery.

## OUR SALES TEAM

Our Total Solution approach begins with our sales team who will provide initial consultation and design partnering while analyzing the most cost-effective solution. By focusing on life-cycle costs, long-term reliability, and ongoing customer support we give our customers a partner for life and are there to support you every step of the way!

## OUR PROJECT MANAGEMENT TEAM

Our Project Management team are the "doers" of Vessco's Total Solution Approach. Working hand in hand with sales and service, they provide elevated customer service with product knowledge and accurate order fulfillment. Customers benefit from quality, local relationships versus having to deal with unknown factory personnel.
