

RENEWABLE ENERGY SOLUTIONS

Vessco, Inc. subscribes to the Worldwide goals which call for a 45% reduction of carbon dioxide emissions by 2030 from 2010 levels and net-zero emissions by 2050.

As a leader in the water treatment industry, we are proud to also lead this charge in representing the water cleaning equipment that aligns with these important goals.

Contact us today and help us deliver clean water in a responsible way!

**BioCNG,
BioRNG,
Carbon
Sequestration
by Pyrolysis**

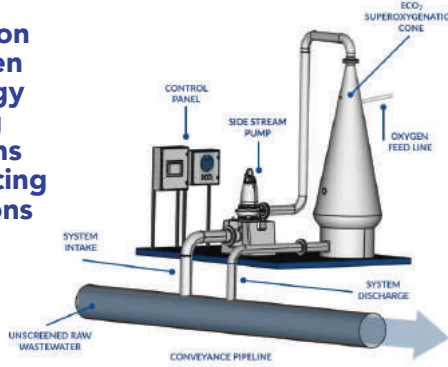

985,000 MMBTU/year of Carbon Negative RNG
Displacing 220,000 metric tons/year GHG

**Sludge to
Biochar &
Syngas by
Pyrolysis**

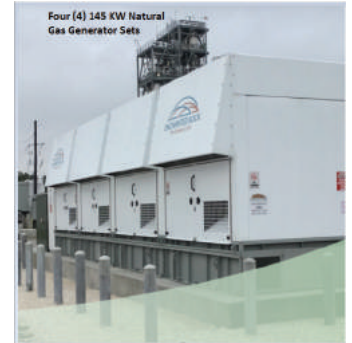

**High concentration
dissolved oxygen
(D.O.) technology
for preventing
anoxic conditions
& therefore reducing
methane emissions**

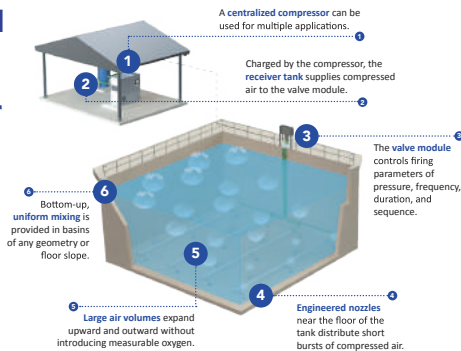

Always-on electricity!

**Dual-purpose microgrids,
powered by GraniteEcosystem™
solution software, fueled by
renewable natural gas-RNG
(carbon negative, not diesel!)**

**BioMix Compressed
Gas Mixing System
that reduces the
energy required for
Aerobic Digestion**

**Green
Hydrogen
Electrolyzer**

**Integrated
Phosphorus
Management
NuReSys**

**Harvesting
Thermal
Energy from
Wastewater**

**American Made Solar
40% ITC Tax Credit
Fastest ROI in Solar
Lowest Carbon Footprint
100% Recyclable**

**BioGas to
BioCNG
or BioRNG**
